

Introduction

Qimini™ is a wireless charging transmitter powered by Qi technology and works flawlessly with any Qi-enabled devices. Its modern design and efficient functionalities take wireless charging to new heights, enabling your mobile devices to be truly mobile.

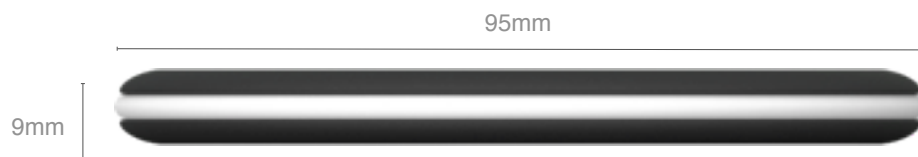

Qi, pronounced "chee", which means «energy flow» in Chinese, is the interface standard for magnetic inductive power transfer system developed by the Qi Wireless Power Consortium. Qimini starts charging as soon as a Qi-compatible device is placed on top of it.

Qimini™ is equipped with a USB cable that powers at the same speed as a standard cable. It is the only Qi charger using a USB connection allowing it to work seamlessly with a computer or any USB power source. Our vision is to make Qimini™ a greatly universal wireless charging device that are accessible anytime and anywhere.

The future of charging is cable-free and comes in a sleek tiny design. Qimini™ is the world's thinnest wireless charging plate to date. With its thickness of only 9mm, all components have been carefully designed to function powerfully in a small package. We paid attention to every detail to bring a beautifully designed product. Not to mention it's so tiny that it fits perfectly almost anywhere.

|--------------------|---|
| 1. Tuck-away cable | The USB cable is designed to be tucked away snugly with an invisible magnet. |
| 2. USB | Qimini™ functions with a standard USB cable for power source. |
| 3. Discreet | A single discreet LED indicator when charging starts. |
| 4. Supported by Qi | Qimini™ is supported by the Qi wireless technology. It functions flawlessly with any Qi-enabled accessory. |
| 5. Ultra Compact | With its thickness of only 9mm, we have carefully optimized all components to function powerfully in a small package. |

Dimension and Weight	Diameter: 95mm Thickness: 9mm Weight: 85g			
Power	Input: 5V Output 5V/1A Dynamic Power Limiting Charges as fast as a standard cable			
Material	Body - PC+ABS - Soft Touch Cable - PVC Packaging: Cardboard and paper			
Colors	Black	Ivory	Emerald	Dragon Fruit
				
Compatibilities	Qi. The Qi consortium has been joined by 140 members. For more information please visit www.wirelesspowerconsortium.com			
What's Included	One Qimini™ ready to be plugged. Also included a travel charger and a User Guide.			
Outer Carton	Qty: 80 pieces Length: 51cm Width: 51cm Height: 45cm			
Inner Carton	Qty: 4 pieces Length: 24.5cm Width: 25.5cm Height: 8.5cm			
Packaging	Length: 12cm Width: 12cm Height: 8cm
